MESSAGE FROM MANAGEMENT

A MESSAGE FROM OUR MANAGING DIRECTOR

Thank you for taking the time to read our company profile. Ets Mohamed Bouya Ould Cheikh Saad Bouh was built on a simple conviction: every workshop, fleet manager and private owner deserves the right Toyota part, at the right price, without guesswork.

From our base in Nouakchott we supply genuine Toyota parts, general auto spare parts and carefully selected aftermarket components — with particular depth in the Hilux and Land Cruiser that keep families, businesses and public services moving across Mauritania.

We identify parts by chassis or VIN number, check every reference before dispatch and stand behind what we sell. When an item is not in stock, we say so honestly and source it quickly through our supply network in Japan, the Gulf and Europe.

To our customers, partners and suppliers: thank you for your continued trust. We look forward to supporting your next project.

WHO WE ARE

A BRIEF HISTORY ABOUT US

Ets Mohamed Bouya Ould Cheikh Saad Bouh is an independent auto spare parts supplier based in Nouakchott, Mauritania. The business grew from a single boutique in Leksar Spare Parts Market into a trusted Toyota and general auto parts house, built on consistent stock, honest advice and the repeat trust of workshops across the city.

Today we supply **Toyota and general auto spare parts** for cars, pick-ups, 4×4s and light commercial vehicles — with particular depth in the **Hilux** and **Land Cruiser** platforms that dominate Mauritania's roads, construction sites and public fleets. From routine service items to major drivetrain and body components, we supply parts that fit, last and keep vehicles working.

WHAT WE DO

- Genuine Toyota parts and OEM-grade aftermarket alternatives
- Engine, drivetrain, braking, suspension, electrical, cooling and body parts
- Supply to workshops, fleets, NGOs, mining and construction companies, resellers and private owners
- Sourcing from Japan, the UAE and Europe, with delivery across Mauritania

CORPORATE PRINCIPLES

OUR CORE VALUES

Our promise is printed on every part we hand over: genuine spare parts, original quality, original packaging and perfect fit.

These four commitments are supported by the way we work every day — with honesty, availability and accountability.

OUR STANDARD

If it is not right for your vehicle, it does not leave our store.

GENUINE SPARE PART

We supply genuine Toyota parts and clearly identified OEM-grade alternatives. Every reference is checked before it reaches your counter.

ORIGINAL QUALITY

We buy from established manufacturers and authorised distributors — never unbranded substitutes passed off as original.

ORIGINAL PACKAGING

Parts arrive sealed in their manufacturer packaging, with labels and references intact, so you know exactly what you are fitting.

PERFECT FIT

Fitment is confirmed by VIN or chassis number. Correct application is checked before dispatch, not after installation.

HONEST ADVICE

We explain the difference between genuine and aftermarket options, and never substitute a part without your approval.

RELIABLE AVAILABILITY

Deep stock of fast-moving Toyota and general auto lines, backed by a sourcing network that shortens waiting time.

ORIGINAL SOURCING

Parts sourced through authorised distributors and established exporters in Japan, the Gulf and Europe.

REFERENCE CHECKED

Every part number is verified against the vehicle's VIN or chassis record before it is quoted.

CLEARLY LABELLED

Genuine and aftermarket options are always identified separately, with the origin stated on the invoice.

WHY CHOOSE US

THE RIGHT PART, THE FIRST TIME

01 **CORRECT IDENTIFICATION**

We match by VIN or chassis number, not by guesswork. The part you receive is the part your vehicle was built for.

02 **STOCK WHERE IT MATTERS**

Fast-moving Toyota lines and everyday service parts are held on the shelf, so routine repairs are not held up by a missing filter or belt.

03 **TECHNICAL ADVICE**

Our team speaks parts: fitment, supersessions, genuine versus aftermarket, and what actually lasts on Mauritanian roads.

04 **RELIABLE SUPPLY**

Direct relationships with suppliers in Japan, the Gulf and Europe give us a second line of supply when an item is not in stock.

SECTORS WE SERVE

- Workshops & garages
- Transport fleets
- Mining & construction
- NGOs & public projects
- Resellers
- Private owners
